

Water Restrictions

Bethesda Water Supply Corporation's primary water supply is treated surface water purchased from the City of Fort Worth that is supplemented with well water. The contract between Bethesda and City of Fort Worth requires Bethesda to follow water restrictions as imposed by Fort Worth.

The primary way to stretch our supplies and save water will be to limit outdoor watering to no more than twice per week.

For the purpose of simplicity, Bethesda will mirror Fort Worth's watering plan. Landscape watering is limited as scheduled below:
